

Digitale Infrastruktur - Bug / Feature #1127

qwebirc (web chat) not working

02 June 2011 17:53 - Valio

Status:	Closed	Start date:	02 June 2011
Priority:	Normal	Due date:	
Assignee:	Exception	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Request Type:	Feature Request		

Description

Since some days the webchat at chat.piratenpartei.ch respectively <http://www.piratenpartei.ch/chat> does not connect anymore to the IRC server. After entering nick (and channel) the following messages are displayed

```
[17:33] qwebirc v0.90
[17:33] Copyright (C) 2008-2010 Chris Porter and the qwebirc project.
[17:33] http://www.qwebirc.org
[17:33] Licensed under the GNU General Public License, Version 2.
[17:33] == *** (qwebirc) Looking up your hostname...
[17:33] == *** (qwebirc) Found your hostname.
[17:33] == Disconnected from server: Connection to IRC server failed.
```

AFAIK the client software is also outdated (there's a stable version from 2011) and I would suggest to update it.

History

#1 - 13 June 2011 14:26 - Exception

- Status changed from New to 3
- Assignee changed from dergringo to Exception

irc trouble all the way.

#2 - 13 June 2011 14:26 - Exception

- Status changed from 3 to Closed
