

pi-vote - Bug / Feature #1255

Mirror für PiVote-Pakete

20 July 2011 21:50 - danilo

Status:	Needs Work	Start date:	20 July 2011
Priority:	Low	Due date:	23 April 2013
Assignee:	Exception	% Done:	90%
Category:	Distribution	Estimated time:	0.75 hour
Target version:	N/A	Affected Users:	All
Request Type:	Feature Request		
Affected Program:	None		
Description Wäre es möglich, die PiVote Pakete an einem Ort zu mirroren, wo die URL keine variablen Bestandteile hat, wie z.B. die Attachment-ID vom Drupal? Wäre sehr praktisch für Paketmanager, dann kann man bei einem Update jeweils nur die Versionsnummer hochschrauben :) Aktuell: http://projects.piratenpartei.ch/attachments/download/256/PiVote_Client_Linux_x86_1.1.3.0.zip Beispiel: http://ftp.piratenpartei.ch/pivote/release/PiVote_Client_Linux_x86_1.1.3.0.zip http://ftp.piratenpartei.ch/pivote/release/latest.zip (symlink) Related issues: Blocks pi-vote - Bug / Feature #4968: ArchLinux PKGBUILD update Needs Work 31 March 2013 01 May 2013			

History

#1 - 21 August 2011 20:33 - Exception

- Category set to 55
- Assignee set to Simon Ruf
- Priority changed from Normal to Low
- Target version set to Backlog

#2 - 29 August 2012 00:41 - danilo

- Priority changed from Low to Normal

Habe jetzt zusätzliche Probleme beim Paketieren der aktuellen Version. Redmine leitet mich beim Download der Files auf das my.piratenpartei.ch Login um.

Ein einfacher anonymer FTP (oder normales HTTP mit Directory Listing) würde völlig reichen!

#3 - 16 September 2012 17:09 - Exception

- Status changed from New to 4
- % Done changed from 0 to 100

Pakete sind jetzt verfügbar unter:

- http://projects.piratenpartei.ch/download/PiVote_Client_Linux_x86_latest.zip
- https://projects.piratenpartei.ch/download/PiVote_Client_Debian_x86_latest.deb

#4 - 16 September 2012 18:19 - danilo

- Assignee changed from Simon Ruf to Exception
- % Done changed from 100 to 80

Tiptop, merci! Könnte man da aber auch die versionierten Pakete gleich mit erstellen? Wenn man nur die latest Pakete verwendet, breakt das ältere Setup-Scripts.

Beispiel aus der Ticketbeschreibung:

```
http://.../PiVote_Client_Linux_x86_1.1.3.0.zip
http://.../latest.zip (symlink)
```

#5 - 13 November 2012 10:55 - danilo

- Priority changed from Normal to Urgent
- % Done changed from 80 to 20
- Estimated time changed from 0.25 h to 0.75 h

Weitere Probleme: Wenn man das PiVote ZIP herunterlädt, wird man via my.piratenpartei.ch weitergeleitet, obwohl der Download kein Login voraussetzt. Dabei scheint irgendwas schief zu laufen.

Mit wget scheints zu klappen, wenn man Redirects erlaubt:

```
$ wget --no-check-certificate \
https://projects.piratenpartei.ch/attachments/download/1212/PiVote_Client_Linux_x86_1.2.4.0.zip
```

Mit curl hingegen gibts einen infinite redirect loop:

```
$ curl -L --insecure \
https://projects.piratenpartei.ch/attachments/download/1212/PiVote_Client_Linux_x86_1.2.4.0.zip
```

-> "curl: (47) Maximum (50) redirects followed"

Da diverse Build Tools abhängig von funktionierenden Downloads sind (Arch's PKGBUILDS nutzen curl) wäre es wirklich gut, wenn die ZIPs irgendwo mirrored werden, wo es keine Redirects gibt.

Nochmal der Vorschlag aus der Ticketbeschreibung:

```
http://ftp.piratenpartei.ch/pivote/release/PiVote_Client_Linux_x86_1.1.3.0.zip
http://ftp.piratenpartei.ch/pivote/release/latest.zip (symlink)
```

Bis dahin ist sowohl der Upgrade des ArchLinux Paketes sowie die Installation des bestehenden Paketes (Ticket [#2998](#)) broken.

#6 - 03 December 2012 00:17 - Apophis

- Priority changed from Urgent to High

#7 - 08 December 2012 23:39 - Exception

- Tracker changed from 2 to Bug / Feature
- Status changed from 4 to Needs Work

#8 - 08 December 2012 23:39 - Exception

- Target version deleted (Backlog)
- Request Type set to Feature Request
- Affected Program set to None
- Affected Users set to All

#9 - 08 December 2012 23:41 - Exception

- Category set to Distribution

#10 - 09 December 2012 00:25 - Exception

- Target version set to N/A

#11 - 09 December 2012 13:12 - Exception

- Status changed from Needs Work to Needs Feedback
- % Done changed from 20 to 50

Wurden an einem neuen Ort abgelegt.

http://stan.piratenpartei.ch/download/PiVote_Client_Debian_x86_latest.deb
http://stan.piratenpartei.ch/download/PiVote_Client_Linux_x86_latest.zip

Funktioniert das jetzt wie gewünscht?

#12 - 10 December 2012 19:44 - danilo

- *Priority changed from High to Normal*
- *% Done changed from 50 to 90*

Danke, das klappt jetzt.

Was nach wie vor fehlt, ist jeweils eine URL mit der aktuellen Versionsnummer im Pfad (wie im Ticket-Text erwähnt). Ansonsten breakt ein Paket, welches von dieser URL abhängt, jedesmal wenn es eine neue Pivote-Version gibt (aufgrund von Hashes die nicht mehr stimmen).

Mit einem File-Archiv wo die versionierten URLs bestehen bleiben, passiert das nicht. Deshalb, nice to have -> 90% done.

#13 - 11 January 2013 16:55 - admin

- *Assignee changed from Exception to danilo*

Automaticacly enforce assigned-to to the author of the ticket

#14 - 11 January 2013 17:12 - admin

- *Due date set to 10 February 2013*

Automatically enforce due date for Normal Priority to 30 days in the future

#15 - 11 January 2013 19:29 - danilo

- *Status changed from Needs Feedback to Needs Work*

- Priority changed from Low to High

Das Archiv ist kaputt.

```
danilo@t410:~$ curl http://stan.piratenpartei.ch/download/PiVote_Client_Linux_x86_latest.zip
<html>
<head><title>500 Internal Server Error</title></head>
<body bgcolor="white">
<center><h1>500 Internal Server Error</h1></center>
<hr><center>nginx/1.2.6</center>
</body>
</html>
```

Kann man die Dateie nicht einfach als Teil des Deploy-Prozesses auf einen FTP oder ein HTTP-Verzeichnis mit directory listing laden?

#34 - 03 April 2013 00:00 - admin

- Due date changed from 02 April 2013 to 05 April 2013
