

pi-vote - Bug / Feature #1725

Circle fails with technical error message after connection loss

01 October 2011 08:42 - Ced

Status:	Closed	Start date:	01 October 2011
Priority:	Normal	Due date:	
Assignee:	Exception	% Done:	100%
Category:	Usability	Estimated time:	0.00 hour
Target version:	N/A	Affected Users:	All
Request Type:	Bug Report		
Affected Program:	All Clients		

Description
Steps that led to the error

1. Start Circle
2. Perform a vote
3. Put the computer to sleep mode
4. Wake the computer
5. Perform "Abstimmungen"- "Aktualisieren"

Observation

- The error message shown below was displayed.
- When the error message is dismissed, the UI is ready for input again. Another click on "Aktualisieren" results in the same error message (endless).
- The user has no other chance than to close the program and restart it.

Expectation

- The software catches the error gracefully and either tries to reconnect, restart the application or asks the user to restart it herself.

Trace

Operating system: Microsoft Windows NT 6.1.7601 Service Pack 1
Program version: 1.1.4.0
Library version: 1.1.4.0
Message: Unable to write data to the transport connection: An established connection was aborted by the software in your host machine.

System.IO.IOException: Unable to write data to the transport connection: An established connection was aborted by the software in your host machine. ---> System.Net.Sockets.SocketException: An established connection was aborted by the software in your host machine

History

#1 - 06 November 2011 15:13 - Exception

- Category set to Usability
- Status changed from New to 2
- Assignee set to Exception
- Target version set to PiVote 1.3.2.0

Will now show an appropriate error message.

#2 - 06 November 2011 15:14 - Exception

- *Status changed from 2 to 3*
- *% Done changed from 0 to 100*

Applied in changeset r318.

#3 - 06 December 2011 23:15 - Exception

Applied in changeset commit:7afe5560a1262555defaae20ecca38ba5e7a5424.

#4 - 30 November 2012 16:43 - Apophis

closed after 12 months

#5 - 08 December 2012 23:46 - Exception

- *Tracker changed from 1 to Bug / Feature*
- *Status changed from 3 to Needs Work*

#6 - 09 December 2012 00:29 - Exception

- *Status changed from Needs Work to Won't Do*
- *Target version changed from PiVote 1.3.2.0 to N/A*
- *Request Type set to Bug Report*
- *Affected Program set to All Clients*
- *Affected Users set to All*

Just gone.
