<b>Description</b>			
<p>The current organigram at <a href="https://my.piratenpartei.ch/org/output.html">https://my.piratenpartei.ch/org/output.html</a> is rather lengthy and does not give newcomers an idea about the party structure.</p> <p>I propose to add a graphical organigram at the beginning that</p> <ol style="list-style-type: none"><li>1. gives an overview over the party structure</li><li>2. provides anchor url shortcuts to the organs</li><li>3. may provide links to the sections</li></ol> <p>A proposal html with style is attached.</p> <p>Instead of providing simple anchors one could also consider to hide everything, until an anchor is clicked; similar to this <a href="http://stackoverflow.com/questions/7773768/jquery-fade-in-out-div-to-a-different-div">http://stackoverflow.com/questions/7773768/jquery-fade-in-out-div-to-a-different-div</a></p>
