Target version:			
Description			
<p>I realized that the PirateTimes feed seems to be missing from the message portal, that was once implemented in #4559.</p> <p>It is not clear at all to me why this feed should removed, as I did not find any hints in minutes in Redmine or similar, nor does it appear that there was there any technical change on the feed provider side AFAIK.</p> <p>Overall I consider the feed very useful for several reasons, thus I would strongly opt to add it again.</p>
