Description

Migration to AdSys was without huge problems. Grat work, big than you especially to Simon.

There are some minor issues left, don't know if you recognized them, so I list them here:

- Login to WP of sections does not work yet:
 - <http://winterthur.zh.piratenpartei.ch/wp-login.php> leads to: 504 Gateway Time-out nginx
 - <http://zh.piratenpartei.ch/wp-login.php> leads to: 504 Gateway Time-out nginx
- New national test WP ist not yet back: <https://old.piratenpartei.ch/> leads to: Apache 2 Test Page powered by CentOS

Thank you, Marc
